

Monday, April 15th, 2024 The Etter-Harbin Alumni Center

8:30 – 9:00am	Breakfast
9:00 - 9:10am	Director's Welcome Bob Messing, Director, Waggoner Center for Alcohol & Addiction
9:10 – 10:10am	SHORT TALKS: SESSION 1
9:10 - 9:30am	Patrick Liang, Postdoctoral Fellow, Dunsmoor Lab "The precision and generalization of safety memory"
9:30 – 9:50am	Kevin Uribe, Postdoctoral Fellow, Marinelli Lab "Sex differences in cocaine-seeking behavior are modulated by activation of the LPO"
9:50 – 10:10am	Nigel Atkinson, Professor of Neuroscience "The hunt for an NFKB synaptic pairing partner"
10:10 – 10:25am	Break
10:10 – 10:25am 10:25 – 11:25am	DATA BLITZ SESSION
10:25 – 11:25am	DATA BLITZ SESSION Adriana Souto Pereira Nuncio, Graduate Student, Melamed Lab "Fecal microbiome transfer from moderate- dose alcohol-fed mice modulates gut-brain axis and ameliorates neuroinflammation in

10:55 – 11:05am	Alexis Campanile, Postdoctoral Fellow, Fonken Lab "Aged male rats display cognitive deficits following two-days of binge-like alcohol exposure"
11:05 – 11:15am	Marion Friske Postdoctoral Fellow, Mayfield Lab "Systematic Review and Meta-analysis on the Transcriptomic Signatures in Alcohol Use Disorder – A Translational Approach"
11:15 – 11:25am	Ritika Ghosal, Postdoctoral Fellow, Eberhart Lab "Ethanol-kat6a interaction induces jaw and oral cavity defects during craniofacial development"
11:25 – 12:30pm	Lunch
12:30 – 1:40pm	Keynote Presentation
	Dr. David Lovinger, Director, Division of Intramural Clinical and Biological Research, National Institute of Alcohol Abuse and Alcoholism "Basal Ganglia Disruption at the Heart of Neural and Behavioral Impairment by Alcohol"
1:40 – 1:55pm	Break
1:40 – 1:55pm 1:55 – 2:55pm	Break SHORT TALKS: SESSION 2
·	
1:55 – 2:55pm	SHORT TALKS: SESSION 2 Regina Mangieri, Assistant Professor, Pharmacology & Toxicology "Exploring the role of interleukin-33 in the neuroimmunophysiology"
1:55 – 2:55pm 1:55- 2:15pm	SHORT TALKS: SESSION 2 Regina Mangieri, Assistant Professor, Pharmacology & Toxicology "Exploring the role of interleukin-33 in the neuroimmunophysiology of excessive alcohol intake" Lubov Ezerskiy, Postdoctoral Fellow, Messing Lab "Transcriptional and functional changes in astrocytes following
1:55 – 2:55pm 1:55- 2:15pm 2:15 – 2:35pm	SHORT TALKS: SESSION 2 Regina Mangieri, Assistant Professor, Pharmacology & Toxicology "Exploring the role of interleukin-33 in the neuroimmunophysiology of excessive alcohol intake" Lubov Ezerskiy, Postdoctoral Fellow, Messing Lab "Transcriptional and functional changes in astrocytes following ethanol exposure" Debby Jacobvitz, Professor, Child Development "Effects of fathers and other secondary caregivers' alcohol use on the

3:55 – 4:55pm
